

Please do not weaken our state law regarding the no call list. The current law has made a wonderful difference in our lives. The number of sales calls we formally received had reached a level of sheer torture. I can remember one Saturday where our phone rang every 15 minutes for 7 straight hours. By the end of the day I was ready to pay the phone company for an unlisted number. I simply can not tolerate the level of telemarketing we experienced before the No Call Law became effective.
